EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. The application has been amended as follows:
3. Please cancel the non elected claims ~~21-22~~. *WMMIT 6/2/06*

Allowable Subject Matter

4. Claims 1-14 and 16-20 are allowed.
5. The following is an examiner's statement of reasons for allowance: This invention deals with an insulating tape comprising a slip layer between the inner and outer conductive layer, wherein the stick layer comprises a non stick coated porous glass tape and a conductive interweave interwoven with the slip layer, wherein the slip layer is wrapped around the electrical conductor in an overlapping manner that allows the conductive interweave to maintain contact with the inner and outer conductive layer through the width of the conductive interweave (claim 1). This invention also deals with a slip layer having a conductive interweave comprising a non stick material coated porous glass tape, wherein the glass tape and a conductive tape are interwoven in a similar manner such that the width of the conductive tape traverses the slip layer, wherein the ratio of the conductive tape to the non stick material glass tape is from 1:1-

1:8 by surface area of the slip layer (claim 14). The above stated claimed limitations is not taught or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

6. Applicant's arguments filed May 24, 2006 have been fully considered and they are persuasive. Specifically, the applicant's argument that none of the prior art discloses a conductive interweave being woven in between the slip layer, wherein a contact is made in a width direction" is persuasive and therefore the claims have been allowed.

Communication

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William H. Mayo III whose telephone number is (571)-272-1978. The examiner can normally be reached on M-F 8:30am-6:00 pm (alternate Fridays off).
